

Vanderson Erlan Sales Militão

Front-end Developer

I have experience in sports social media, i've developed the visual part and some design concepts. Due to previous experiences, I have ease in dealing with people. Currently, I have joined the Front-End area, specializing in **JavaScript, HTML5, CSS3 and Bootstrap**.

EXPERIENCE

Freelancer, Sergipe
Front-End Developer
October 2022 – current.

Project: **Internet provider:** ([project link](#))

* The system offers a simple and intuitive dashboard, easy to teach the employee who will use it. With 4 sessions, the system was created in SPA (Single Page Application) and you can navigate through them to add registrations, make payments, create service orders and edit/delete registrations. It also has a search by name, CPF or address.

* Stacks used: **JavaScript (ES6), HTML5, CSS3, figma e Lodash.**
